---

**Engineering Manager** with over 8 years of experience using latest technologies such as HTML5, CSS3, Web Components, JavaScript, ES6 and JavaScript frameworks (React, Redux, Angular, jQuery etc.), or content management systems (CMS) like WordPress, Joomla, AEM. Experience in **Product & Project Management** and passionate about **Tech Consultancy & Mentorships**.

## EXPERIENCE

### Mimecast

09/2019 – PRESENT

#### **Engineering Manager II**

Managing talented Software Engineers and QA Automation Engineers working on a range of different products.

Our goal as engineering managers at Mimecast is to:

- support and help engineers grow into world-class engineers and technical leaders, as well as
- contribute technically and lead the development of our product portfolio

### IG

06/2018 – 09/2019

#### **Senior Web Developer (front-end)**

Working within the Marketing department of the company, I am:

##### BUILDING & MAINTAINING:

- All marketing websites built on AEM (Adobe Experience Manager)
- Internal apps/tools (Web Apps, Desktop Apps, Browser Extensions, AEM interfaces, etc.)

##### MENTORING & LEADING:

- A team of 6 front end engineers while being the only senior member of the team

##### WORKING CLOSELY WITH:

- PMs (Project & Product Managers) to define prioritisation of our team's work
- QA (Quality Assurance) to ensure high quality delivery of new features
- 3rd party agencies - working with React.js and other frameworks
- Other team leaders to define requirements and architecture of new projects

in locations across the globe (Singapore, Krakow, Bangalore, Paris, Madrid, etc.)

##### USING TECHNOLOGIES SUCH AS:

OO JavaScript, Web Components with Stenciljs, React, Redux, Typescript, LESS, HTML5, JAVA, Python, AWS Lambda, Angular, Electron, Docker, Handlebars, Mocha, Jasmine, Istanbul and Jest for testing with daily code reviews and pair programming

### PEERSPECTIVE

10/2018 – 03/2019

#### **Technology Consultant & Operations Manager (Part time Contract)**

Reporting to Peerspective's Directors my role consists but is not limited to:

- Developing, implementing, enforcing and evaluating procedures
- Designing and building innovative customer experiences
- Manage expectations with clients and internal resources
- Helping clients address business-wide change
- Coaching, mentoring, motivating, and supervising clients

## **VOXYGEN**

**07/2017 – 07/2018**

### ***Web Developer & Project Manager***

As a Web Developer, reporting directly to the CTO (Chief Technology Officer), I:

- Formed Voxygen's Deep Learning Analytics platform from scratch
- Lead the web development for it
- Assisted in interview processes by creating React, JavaScript, CSS and web development technical assessments for open web development positions

Voxygen's Deep Learning Analytics platform is able to:

- ✓ provide intelligent voice and text analysis
- ✓ perform speech to text transcription
- ✓ interpret sentiment and tone of voice

More information can be found at the following links:

<https://www.voxigen.com/product-communication-call-recording>

<https://www.voxigen.com/product-analytics>

As a Project Manager, I reported to and worked closely with the CPO (Chief Product Officer). Sample projects include but are not limited to:

- Launch brand new marketing website
- Re-design brand (logo, colour palette, business cards etc.)
- Continuous study of implemented analytics and decision making upon them

## **NEXMO**

**03/2016 – 07/2017**

### ***Associate Web Developer (front-end)***

My role consisted of:

- Working on React.js, ES6, Webpack, Babel
- Implementing Google Analytics, Kissmetrics and segment.io to get better feedback on our changes
- Converting CSS to SCSS
- Working on Java and JSP
- Developing cross-browser and responsive solutions
- Creating responsive HTML email template

## **FREELANCER**

**09/2011 – 01/2017**

### ***Web Developer (full-stack)***

- Designed and built marketing websites, web and mobile applications for either individuals and/or corporations
- Held weekly meetings with the Board of Directors and Senior Management teams to showcase my progress, get feedback and present new ideas
- Provided cost-effective website hosting solutions

## GREATIVES

08/2012 – 04/2014

### *Web Developer (front-end)*

- Participated in the design of the ThemeForest "Reload – Responsive Multi-Purpose" theme (approved and published on themeforest), using HTML5, CSS and JavaScript
- Accelerated time of project delivery, as the main contributor, by:
  - cross-checking coding and locating bugs
  - putting together all team's code lines
- Acted as contact person (24/7) towards the theme's potential buyers, explaining its purpose/details and replying to all support section's queries, after release date

✓ Award received (badged) as "Elite Author", on theme "Reload – Responsive Multi-Purpose" being credited 4.9/5, with more than 1000 purchases

## EDUCATION

### THE OPEN UNIVERSITY, UNITED KINGDOM

MSc, Development Management (Part Time), expected graduation year: 2021

### ATHENS UNIVERSITY OF ECONOMICS AND BUSINESS, GREECE

BSc, Computer Science, on hold

### HELLENIC AMERICAN EDUCATIONAL FOUNDATION, GREECE

High-School Diploma (Math's grade 19.4/20, among the top 1% nationwide; merit scholarship received)

## LANGUAGES

**Greek** (fluent - native), **French** (fluent - native), **English** (fluent), **German** (limited proficiency)
