---

**Website** <http://stmoreau.github.io>

Senior **Web Developer** with over 6 years of experience using latest technologies such as HTML5, CSS3, Web Components, JavaScript, ES6 and JavaScript frameworks (React, Redux, jQuery etc.), or content management systems (CMS) like WordPress, Joomla, AEM. Experience in **Management** and passionate about **Tech Consultancy & Mentorships**.

## EXPERIENCE

**IG**

**06/2018 – PRESENT**

### ***Web Developer (front-end)***

Mainly working on the core Marketing Websites of the company, I am:

**BUILDING & MAINTAINING:**

- All marketing websites built on AEM (Adobe Experience Manager)
- Internal apps/tools (Web Apps, Desktop Apps, Browser Extensions, AEM interfaces, etc.)

**COMMUNICATING WITH:**

- PMs (Project & Product Managers)
- Other dev teams (Devices teams, Middleware teams, etc.)
- QA (Quality Assurance)
- 3rd party agencies - working with React.js and other frameworks

**USING TECHNOLOGIES SUCH AS:**

OO JavaScript, Web Components with Stenciljs, Typescript, LESS, HTML5, JAVA, Python, AWS Lambda, Angular, Electron, Docker, Handlebars, Mocha, Jasmine, Istanbul and Jest for testing with daily code reviews and pair programming

**PEERSPECTIVE**

**10/2018 – PRESENT**

### ***Technology Consultant & Operations Manager***

Reporting to Peerspective's Directors my role consists but is not limited to:

- Developing, implementing, enforcing and evaluating procedures
- Designing and building innovative customer experiences
- Manage expectations with clients and internal resources
- Helping clients address business-wide change
- Coaching, mentoring, motivating, and supervising clients

**VOXYGEN****07/2017 – 07/2018*****Web Developer & Project Manager***

As a Web Developer, reporting directly to the CTO (Chief Technology Officer), I:

- Formed Voxygen's Deep Learning Analytics platform from scratch
- Lead the web development for it
- Assisted in interview processes by creating React, JavaScript, CSS and web development technical assessments for open web development positions

Voxygen's Deep Learning Analytics platform is able to:

- ✓ provide intelligent voice and text analysis
- ✓ perform speech to text transcription
- ✓ interpret sentiment and tone of voice

More information can be found at the following links:

<https://www.voxygen.com/product-communication-call-recording>

<https://www.voxygen.com/product-analytics>

As a Project Manager, I reported to and worked closely with the CPO (Chief Product Officer). Sample projects include but are not limited to:

- Launch brand new marketing website
- Re-design brand (logo, colour palette, business cards etc.)
- Continuous study of implemented analytics and decision making upon them

**NEXMO****03/2016 – 07/2017*****Associate Web Developer (front-end)***

My role consisted of:

- Working on React.js, ES6, Webpack, Babel
- Implementing Google Analytics, Kissmetrics and segment.io to get better feedback on our changes
- Converting CSS to SCSS
- Working on Java and JSP
- Developing cross-browser and responsive solutions
- Creating responsive HTML email template

**FREELANCER****09/2011 – 01/2017*****Web Developer (full-stack)***

- Designed and built marketing websites, web and mobile applications for either individuals and/or corporations
- Held weekly meetings with the Board of Directors and Senior Management teams to showcase my progress, get feedback and present new ideas
- Provided cost-effective website hosting solutions

## GENJI-ESPORTS

09/2014 – 02/2016

### ***Co-Founder | Member of BoD | Project Manager***

(E-sports industry; managing 6-7 competitive players)

- Funded team members' expenses (tickets, accommodation, nutrition, etc.) to international e-sports competitions (e.g. DreamHack Summer 2015), by negotiating and obtaining sponsorships from well-known companies (e.g. in computer hardware, anime, athletic suits)
- Promoted the corporate image and building it to reach top-search results by designing a smart and quality-in-content online brand ([www.teamgenji.com](http://www.teamgenji.com)). Not online anymore.
- Increased corporate partners and sponsors by creating a well-bonded community through the brand's Facebook page (<https://www.facebook.com/genji.esports>)
- Organized the corporate commercial strategy and prospect business through thorough market research

## GREATIVES

09/2012 – 04/2014

### ***Web Developer (front-end)***

- Participated in the design of the ThemeForest "Reload – Responsive Multi-Purpose" theme (approved and published on themeforest), using HTML5, CSS and JavaScript
- Accelerated time of project delivery, as the main contributor, by:
  - cross-checking coding and locating bugs
  - putting together all team's code lines
- Acted as contact person (24/7) towards the theme's potential buyers, explaining its purpose/details and replying to all support section's queries, after release date

✓ Award received (badged) as "Elite Author", on theme "Reload – Responsive Multi-Purpose" being credited 4.9/5, with more than 1000 purchases

## EDUCATION

### **THE OPEN UNIVERSITY, UNITED KINGDOM**

MSc, Development Management (Part Time), expected graduation year: 2021

### **ATHENS UNIVERSITY OF ECONOMICS AND BUSINESS, GREECE**

BSc, Computer Science, on hold

### **HELLENIC AMERICAN EDUCATIONAL FOUNDATION, GREECE**
